EDUCATION

B.Sc Computer Science & Information Systems

Technion - Israel Institute of Technology

2012 - 2016

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

Amazon Web Services (AWS)

SKILLS

∞ **CI/CD & GitOps**
* Jenkins
* GitHub Actions
* ArgoCD
* Argo WorkFlows
* HashiCorp Vault

☁ **Cloud & Orchestration**
* AWS Services
* GCP Services
* Standalone K8S
* Amazon EKS
* Helm
* Docker

⚙ **IaC & Automation**
* Terraform
* Ansible
* AWS CDK
* Shell Scripting
* Python
* Groovy

🔍 **Observability**
* OpenTelemetry
* Prometheus
* Grafana
* Elastic Stack (ELK)
* Splunk

EXPERIENCE

Senior Site Reliability Engineer
01/2023 - Present

Cisco
Tel Aviv

Developing CNAPP & GenAI Incubation platform.
Being dispatched into multiple venture teams at different dev/production lifecycles,
Our engineering platform offer multiple flavor of services:

• Comprehensive CI/CD & GitOps development
• Cross-functional observability design
• Project consultation and cloud services
• Stack architecture and cloud migrations
• Integration of software stacks & microservices
• IDP self-service workflows
• Production on-call and incident mitigation

Leveraging the latest tech stack, all cloud based while adhering to Cisco's highest security standards.

DevOps Engineer - SaaS R&D
07/2022 - 01/2023

Micro Focus
Tel Aviv

• Developing CI/CD & GitOps pipelines.
• IAC deployment on AWS CDK(Python/TS).
• Deploying CaaS microservices on AWS ECS.
• On-Prem Infra migration to VMC and AWS.

Infrastructure Engineer - Cloud R&D
12/2019 - 07/2022

Micro Focus
Tel Aviv

• ScrumMaster: facilitating daily scrum, sprint planning, and retrospectives.
• Automating cloud migration efforts.
• Designing internal observability solution for public cloud and middleware services.
• Developing Internal Cloud Management Platform (IaC/NodeJS):
    Provisioning >5000 virtual servers for our R&D and Production
    Handling different requirements and architectures from ~1200 users

----

SRE - SaaS Production
12/2018 - 12/2019

Micro Focus
Tel Aviv

• Developing self-heal cron-jobs for our on-prem infrastructure (C#/BASH).
• Debugging telemetry and mitigating real-time production outages.
• Coordinating app upgrade processes with SLA compliance for all stakeholders.
• Managing RCA; implementing preventative & auto detective measures for mitigation.
• Creating & Refining Production runbooks.
• Individual development of a full-stack application for SaaS incident management.

SRE - SaaS Production
12/2016 - 12/2018

Hewlett Packard Enterprise
Yehud

• Deploying & Monitoring E2E telemetry (Metrics,Logs and Traces).
• Infrastructure health maintenance for VMware & Cloud environments.
• Debugging outages, developing and automating self heal workflows.
• Production On-call; incident management & coordination with R&D|Stakeholders.
• Individual development of a full-stack app of a centralized observability console.
